

Penetration testing also called pen testing is the practice of testing a computer system, network or Web application to find vulnerabilities that an attacker could exploit, have become much popular these days due to increase in cyber crime. Each day hundreds of people are getting targeted by online attacks executed by the hackers. We have an aim to make this cyber space secure for everyone. We're just launching a free ethical hacking course to make awareness in people to fight against these cyber attacks.

We will cover all the topics from scratch to pro. Every tutorial will have complete demonstration of the attack step by step. So, here's the first step before [learn how to hack](#). We need to setup penetration testing lab first. As we're going to learn it for educational purpose only. We setup a hacking environment on our machine which will not harm anyone in the real.
