The Roots of Southern Writing C. Hugh Holman, 2008 At the heart of the southern riddle you will find a union of opposites a condition of instability a paradox Calm grace and raw hatred Polished manners and violence An intense individualism and intense group pressures toward conformity A reverence to the point of idolatry of self determining action and a caste and class structure presupposing an aristocratic hierarchy A passion for political action and a willingness to surrender to the enslavement of demagogues A love of the nation intense enough to make the South's fighting men notorious in our wars and the advocacy of interposition and of the public defiance of national law A region breeding both Thomas Jefferson and John C Calhoun If these contradictions are to be brought in focus if these ambiguities are to be resolved it must be through the reconciliation of opposites And the reconciliation of opposites as Coleridge has told us is the function of the poet So begins the first of these seventeen penetrating essays drawn from long and fruitful reflection of southern life and art by C Hugh Holman Professor Holman maintains that there is a congeries of characteristics identifiably present in much southern writing and he astutely defines them in this collection William Gilmore Simms Ellen Glasgow Thomas Wolfe William Faulkner and Flannery O Connor are treated at length Among the other authors considered in terms of their roles in the making of the southern mind are James Branch Cabell T S Stripling Erskine Caldwell and Robert Penn Warren The essays strike a fine balance between general overview and specific analysis and they are so arranged as to make a unified study which forms a significant chapter in the intellectual history of the South Professor Holman asserts that out of the cauldron of the South's experience the southern writer has fashioned tragic grandeur and given it as a gift to his fellow Americans It is possible that no other southern accomplishment will equal it in enduring importance As urbanization and industrialism conspire to write an Epitaph for Dixie its greatest contribution to mankind may well be the lesson of its history and the drama of its suffering In these superb essays the author makes a convincing argument for that position

The Flood J.M.G. Le Clézio, 2008-11-27 Fran ois Besson listens to a tape recording of a girl contemplating suicide Drifting through the days in a provincial city he thoughtlessly starts a fire in his apartment attends confession and examines with great intentness but without affection a naked woman he wakes beside And as Besson moves through an ugly and threatening rain his thoughts eventually lead to violence first turned outward and then directed languidly against himself

The Complete Writings of Charles Reade Charles Reade, 1896 *Selected Writings on Media, Propaganda, and Political Communication* Siegfried Kracauer, 2022-05-17 Siegfried Kracauer stands out as one of the most significant theorists and

critics of the twentieth century acclaimed for his analyses of film and popular culture However his writing on propaganda and politics has been overshadowed by the works of his contemporaries and colleagues associated with the Frankfurt School This book brings together a broad selection of Kracauer s work on media and political communication much of it previously unavailable in English It features writings spanning more than two decades from studies of totalitarian propaganda written in the 1930s to wartime work on Nazi newsreels and anti-Semitism through to examinations of American and Soviet political messaging in the early Cold War period These varied texts illuminate the interplay among politics mass culture and the media and they encompass Kracauer s core concerns the individual and the masses the conditions of cultural production and the critique of modernity The introduction and afterword explore the significance of Kracauer s contributions to critical theory film and media studies and the analysis of political communication both in his era and the present day At a time when demagoguery and bigotry loom over world politics Kracauer s inquiries into topics such as the widespread appeal of fascist propaganda and the relationship of new media forms and technologies to authoritarianism are strikingly relevant
