Less Than Nothing:

A Road to Sacred Creation Rudolf Steiner, 2021-08-03 Rudolf Steiner's perspectives on technology are manifold and prophetic. He not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise. Technologies that would be connected to the makers' very attitudes of soul, either the good or bad within them, in other words, their deepest motivations. How we, as evolving human beings, approach technology and its development will be instrumental in determining how ultimately human evolution will turn out. Our future as human beings and the future of technology are intimately connected. Gary Lamb's illuminating, compelling, challenging, at times staggering, in its breadth, *A Road to Sacred Creation* is above all the definitive text for gaining a hold on Rudolf Steiner's nuanced perspectives on technology. Charting both an inner and outer course, part pilgrimage toward greater perception and knowledge, part dramatic unfolding plot line of the future of humans and machines, the metaphoric road of the title is exactly where humanity finds itself today, though the exact route and destination are still to be determined. The map is not yet drawn, but here is a beginning. Taken together, the relevant concepts, ideas, and insights of Steiner, deftly brought into sequence and dialogue as the editor has done in this book, reveal how the work to arrive at a more spiritually imbued technological future, not only involving all domains and fields of spiritual science and anthroposophic work, but having its origins in the very core of our being, fundamentally entwined with our moral progress toward freedom and selfless love.

Economics in Spirit and Truth N. Wariboko, 2014-11-06 Wariboko offers a critical philosophical perspective on the logics and dynamics of finance capital in the twenty-first century in order to craft a model of the care of the soul that will enable citizens to not only better negotiate their economic existences and moral evaluations within it but also resist its negative impact on social life.

Metaphysics of Children's Literature Lisa Sainsbury, 2021-01-28 *Metaphysics of Children's Literature* is the first sustained study of ways in which children's literature confronts metaphysical questions about reality and the nature of what there is in the world. In its exploration of something and nothing, this book identifies a number of metaphysical structures in texts for young people, such as the ontological exchange or nowhere in extremis, demonstrating that their entanglement with the workings of reality is unique to the conditions of children's literature. Drawing on contemporary children's literature discourse and metaphysicians from Heidegger and Levinas to Bachelard, Sartre, and Haraway, Lisa Sainsbury reveals the metaphysical groundwork of children's literature. Authors and illustrators covered include Allan and Janet Ahlberg, Mac Barnett, Ron Brooks, Peter Brown, Lewis Carroll, Eoin Colfer, Gary Crew, Roald Dahl, Roddy Doyle, Imme Dros, Sarah Ellis, Mem Fox, Zana Fraillon, Libby Gleeson, Kenneth
