

Information Security Policy

The policy will also put into consideration the privacy, reputation, intellectual repertory and productivity of the Bloom Design Group. The continued operation of this company depends on being able to access and use resources within the organization and being able to remote access with security. Each persons role in the company will be considered and appropriate access will be given to ensure the efficient operation of the business, while not giving access to those who are not authorized. This policy will also help in the company's adherence to any governmental regulations.

Any disruptions of service or security related issues will be dealt with immediately by means of system software that is automated to handle retain threats. More serious issues will be dealt with by the IT staff whose responsibility it is to oversee the everyday operation of the information system. 2. Introduction Due in Week One: Give an overview of the company and the security goals to be achieved. 2.1 . Company overview The Bloom Design Group is a company that offers interior design services to businesses and individuals around the world.

There corporate office is located in New York with a secondary office in Los Angels for handling operations on the West coast. They have a web site that offers their customers the ability to work up their signs online and then purchase them through a electronic order processing system. Also, the designers use secure logins and passwords to access the web site. A large number of the workforce work remotely possibly using tablets or pads connected to secure VPN or Virtual Private Networks. 2. 2.

Security policy overview Bloom Design group already provides secure logins and networks to their employees so they already have some type of system setup already. However, this does not mean it is a system that works efficiently. I think the appropriate security policy to implement for this project would be system specific. . 3. Security policy goals As applies to your selected scenario, explain how the confidentiality, integrity, and availability principles of information security will be addressed by the information security policy. 2. 3. 1 .

Confidentiality The policy I plan to implement will help to protect information by reviewing how the company stores sensitive information such as employee and client records, trade secrets, and other sensitive data. 2. 3. 2. Integrity Since the company will be using passwords and secure logins the system will not be accessible to the public. So the primary focus should be on the employees. Authentication and verification can be done using a data log to keep records of employees activity while on the company's VPN. Also, the use of a firewall will help with integrity as it will prevent employees from unknowingly accessing damaging websites. . 3. 3. Availability The policy I plan to use will help with
