A note from the publisher

In order to provide our students with high quality resources for their science and science qualifications, we have brought a team of science teachers working together to develop a revision resource for the specification of GCSE (9–1) Combined Science. It is aimed to help students to understand and appreciate the importance of the development of subject skills, including understanding the scientific process.

Our resources have all been carefully produced to ensure that they are accurate, up-to-date and provide a high quality standard for the specification. We have also provided a free-of-charge support for the learning of science at a school level.

We are delighted to have made these guides to assist your school in the specification and its progress.
