

The background of the slide is a photograph of a building's steel frame under construction. The image shows a complex network of dark steel beams and girders against a lighter, hazy sky. The perspective is from a low angle, looking up at the structure, which creates a sense of height and industrial scale. The lighting is somewhat dim, with a yellowish tint, possibly due to the lighting conditions during the construction or the way the photo was processed.

Proceedings of the International Conference on Smart and Sustainable Built Environment (SASBE 2024) Ali GhaffarianHoseini, Amirhosein Ghaffarianhoseini, Farzad Rahimian, Mahesh Babu Purushothaman, 2025-04-19 This book presents peer reviewed articles from the International Conference of Sustainable Development and Smart Built Environments SDSBE2024 held from 6-8 Nov at Auckland New Zealand It encapsulates cutting edge research in Sustainable Development and Smart Built Environments featuring global scholars Encompassing diverse themes the book explores sustainable urban development governance and policy emphasizing urban greening and climate resilience It delves into innovative approaches for sustainable transport intelligent infrastructure and community well being The integration of Data Science AI and IoT for optimizing built environments is a focal point alongside advancements in digital twins and OpenBIM Social aspects including equity and indigenous perspectives are explored along with health considerations in urban settings The proceedings serve as a comprehensive resource reflecting the multifaceted advancements driving sustainable and smart urban futures

Building Performance Simulation for Design and Operation Jan L.M. Hensen, Roberto Lamberts, 2012-09-10 Effective building performance simulation can reduce the environmental impact of the built environment improve indoor quality and productivity and facilitate future innovation and technological progress in construction It draws on many disciplines including physics mathematics material science biophysics and human behavioural environmental and computational sciences The discipline itself is continuously evolving and maturing and improvements in model robustness and fidelity are constantly being made This has sparked a new

agenda focusing on the effectiveness of simulation in building life cycle processes Building Performance Simulation for Design and Operation begins with an introduction to the concepts of performance indicators and targets followed by a discussion on the role of building simulation in performance based building design and operation This sets the ground for in depth discussion of performance prediction for energy demand indoor environmental quality including thermal visual indoor air quality and moisture phenomena HVAC and renewable system performance urban level modelling building operational optimization and automation Produced in cooperation with the International Building Performance Simulation Association IBPSA and featuring contributions from fourteen internationally recognised experts in this field this book provides a unique and comprehensive overview of building performance simulation for the complete building life cycle from conception to demolition It is primarily intended for advanced students in building services engineering and in architectural environmental or mechanical engineering and will be useful for building and systems designers and operators

Fundamental Building Technology Andrew J. Charlett, Craig Maybery-Thomas, 2013-01-25 Fundamental Building Technology introduces the technology methods and processes fundamental to construction by focussing on what is involved in building a typical low rise house Written with the novice in mind this textbook is the ideal starting point for any construction student as it fully supports the reader all the way to understanding the functional requirements of each element of the building and how to take these into account through the building process itself This second edition is expanded to cover even more relevant topics and is supported by more resources for use by the student and lecturer Now included are An introduction to the planning process and the building regulations How to incorporate a sustainable approach in the selection of materials and elsewhere A companion site with lecturer s answers manual and illustrated lecture notes 150 labelled diagrams throughout the book and multiple self study questions in every chapter A students section of the companion site with multiple choice quizzes and 250 full colour photos linked to chapters of the book Concise focussed and the most student friendly guide to this topic available Fundamental Building Technology is the perfect textbook for those taking construction technology modules at undergraduate or HNC HND level

Advances in Building Technology M. Anson, J.M. Ko, E.S.S.
