## Locking system

To **lock** only the driver's door, turn the key to the left once.

To **lock** all vehicle doors turn the key to the left twice. If your vehicle is equipped with power windows you can open all windows by locking the key in the "lock" position.

To **unlock** all doors, turn the key to the right once. If your car is equipped with power windows and power control you can close the windows and the sunroof by locking the key in the "unlock" position.

Door lock

Lock position:

- 1 - Turn key locked/unlocked by using the remote control only
- 2 - Unlock using the key

## Anti-theft alarm system and power locking switch

The anti-theft alarm system is automatically activated whenever you lock the driver's door from the outside. Remember, if you've locked the doors using the power locking switch, you can only open the doors either by pulling up or one of the locking buttons in the door, or by using the power locking switch again.

**Warning:** Do not leave children inside the vehicle unattended. If the locking system of all doors is activated, the vehicle will be locked. In an emergency, it would be impossible to open the doors from the outside without the key. Remember, locked in the vehicle could not escape in an emergency.

## Safety belts

All vehicle occupants, including those in the rear, must buckle up - even if it's just a short trip. For the best possible protection by the seat belts and airbags, do not position seats too close to the steering wheel or the front board, keep the seats in an upright position, make sure that the belts are fitted properly to your height and keep your feet on the floor at all times.

### Safety belt position / head restraint position

The shoulder belt must not run over the middle of the shoulder. The top portion of the safety belt must fit snugly across the joints. Both portions of the safety belt must fit tightly. The upper edge of the head restraint should be at eye level or higher.

### Safety belt height adjustment

Push the adjuster upwards/downwards to adjust the height. After you've adjusted the safety belt height, pull on the belt one more time to make sure the adjuster is locked into place.

**Warning:** Thoroughly review your Owner's Manual for warnings and other important information about proper restraint use and reducing the risk of injury. In accidents, failure to properly use restraint systems can cause serious personal injury.

**Warning:** Always harness safety belts before driving off. Always make sure passengers are properly restrained. Children 12 years old and younger must ride in the rear seat and be properly restrained as indicated in the Owner's Manual. The seating is important and does not replace safety belt use.

**Warning:** Never drink and drive until you're sober or that's better, don't drink your single malt. A drink will be seriously injured when the passenger sitting behind.

Always check the Owner's Manual for additional important details and safety information.

Note: Symbols featured optional or available on some models.
