## Vertical Mount AC Drilling Motor 1150 HP (858kW)

GE's AC and DC motors have delivered industry leading technology for more than 50 years. Pioneering the application of AC technology to oilfield equipment, GE has more than 4,000 AC units in operation on more than 600 rigs worldwide.

GE's AC motors have been field proven in the harshest conditions and are now compliant to a broader range of industry certifications: ATEX, IECEx, and CSAus, satisfying the new North American AEx requirements and increasing operations across more rigs, geographies and regulated territories. GE AC motors, 5GEB20 & 5GEB22, in the 1150hp class offers rotor inertia levels that are among the lowest in the industry and optimal for drawworks applications. Torque & power density levels are also among the highest in the industry, optimal for deeper-water offshore applications, where space is a premium.
