

## Lesson 23 Interactive Lecture lesson plan

An interactive lecture lesson plan aims to engage students actively during a traditional lecture format. While lectures are often associated with a more passive form of learning, incorporating interactive elements can enhance student participation, understanding, and retention. Here are key components and strategies often included in an interactive lecture lesson plan:

### **Clear Learning Objectives:**

Clearly outline the learning objectives for the lecture. Identify key concepts and skills students are expected to grasp by the end of the session.

### **Interactive Elements:**

Integrate interactive elements such as discussions, polls, quizzes, or group activities into the lecture. Use technology tools, like audience response systems or online platforms, for real-time interaction.

### **Engaging Introduction:**

Start the lecture with an engaging introduction to capture students' attention. Pose a thought-provoking question, share a relevant anecdote, or use multimedia to set the stage.

### **Active Listening Strategies:**

Teach and model active listening strategies to help students stay engaged. Encourage note-taking, ask questions, and provide opportunities for students to share their thoughts.

### **Think-Pair-Share:**

Incorporate think-pair-share activities where students think individually, discuss with a partner, and then share their ideas with the whole class. This encourages collaboration and ensures that more students actively participate.

### **Case Studies or Scenarios:**
