Nationalism in India

Modern nationalism in Europe came to be associated with the formation of nation-states. It also meant a change in people's understanding of who they were, and what defined their identity and sense of belonging. New symbols and icons, new songs and ideas forged new links and redefined the boundaries of communities. In most countries the making of this new national identity was a long process. How did this consciousness emerge in India ?

The text below is very faint and mostly illegible. It appears to be a continuation of the case study or a set of introductory text for the questions. It discusses the process of nationalism in India, mentioning the role of the Congress and the formation of a national identity.

- 11.1 What was people's understanding of nation ?
- 11.2 How was the growth of national consciousness associated with the anti-colonial movement ?
- 11.3 How did people in India develop a sense of collective belonging ?
