### NATIVE AMERICANS

Native Americans originally came to America about 20,000-30,000 years ago. They crossed the 70km-wide strip of water called Bering Strait, which connects America and Asia. In winter the water freezes and people can walk across the ice and snow. From the far north-west of America, they travelled south, some of them as far as South America. Many people called the Native Americans 'Indians', but the name is incorrect. When Christopher Columbus and the Europeans came to their land in 1492, they thought they had travelled round the world and had landed in India. In fact, they had landed in what we now call America, which was named after the Italian -born Spanish explorer, Amerigo Vespucci.

As the settlers moved west, they claimed that they found as their own. They wanted new homes, large farms and the valuable minerals which were in the land. The Native Americans wanted to keep their traditional way of life, their homes, and their hunting grounds. Both sides wanted a future for their families.

Gradually, the greater numbers and better weapons of white men overwhelmed the Native Americans. The arrival of the railways, known as the 'Iron Horse', was another fatal blow. The white workers slaughtered millions of buffalo. As a result, many Native Americans starved to death.

The Native Americans had their greatest victory in 1876, at the Battle of Little Big Horn in Montana. But 1890 saw the end of Native American resistance. At the Battle of Wounded Knee, the last brave Native American warriors were brutally massacred.
