## Abstract

In a dynamic world of continuously evolving design and application of innovative new technologies, it is proving increasingly challenging to apply the traditional approach of prescriptive-based standards. As a result, attention has focused on the increased use of a goal based philosophy over the detailed technical standards often incorporated in rules and regulations. A successful application of this approach has been witnessed in providing goal based requirements to the design of safety for naval vessels.

**Key words:** ABS, ANEP, GBS, goal based standard, INSA, NATO, NSCA, naval, safety.

## Resumen

En un mundo dinámico de constante evolución en diseño y aplicación de nuevas tecnologías innovadoras, está resultando cada vez más difícil aplicar el enfoque tradicional de los estándares basados en normas prescriptivas. Como resultado, la atención se ha centrado en el uso creciente de una filosofía basada en objetivos por encima de los estándares técnicos detallados que a menudo se incorporan en reglas y regulaciones. Una aplicación exitosa de este enfoque se ha evidenciado en la proposición de requisitos basados en objetivos al diseño de la seguridad para los buques navales.

**Palabras claves:** ABS, ANEP, GBS, estándar basado en objetivos, INSA, OTAN, NSCA, naval, seguridad.
