Beginning PowerApps Tim Leung,2017-11-27 Build mobile apps that specifically target your

company's unique business needs with the same ease of writing a simple spreadsheet. With this book you will build business apps designed to work with your company's systems and databases without having to enlist the expertise of costly professionally trained software developers. In *Beginning PowerApps*, author and business applications expert Tim Leung guides you step by step through the process of building your own mobile app. He assumes no technical background, although if you have worked with Excel you are one step closer. He guides you through scenarios such as what to do if you have existing databases with complex data structures and how to write screens that can connect to those data. You will come away with an understanding of how to set up screen navigation, manipulate data from within apps, and write solutions to perform specific tasks.

What You'll Learn: Connect with data, Write formulas, Visualize your data through charts, Work with global positioning systems, GPS, Build flows, Import and export data, Manage offline scenarios, Develop custom application programming interfaces, API.

Who This Book Is For: Beginners and non-developers and assumes no prior knowledge of PowerApps.
