Environmentally-Friendly Product Development Eberhard Abele,Reiner Anderl,Herbert Birkhofer,2007-08-06

Development of environmentally friendly products gains an increasing portance in science and in industry While product development was strongly dedicated to achieve quality cost and time targets environmental issues indirectly had always been under consideration by engineers see Fig 1 Furthermore a methodology for the development of environm tally sound products was missing Despite of significant progress in using computer aided tools for product development and design environmental aspects were attended Computer aided tools typically do not include methods for considering environmental issues enabling the designer to sess a product s environmental effects Fig 1 Vision of Environment as a key target for product development v vi Preface Product related environmental issues are getting more and more political and public awareness Development of environmentally friendly products has become an action item for both politics and industry UNFCCC 1997 Energy consumption is on the agenda and covers pollution and resource saving Typical topics of directives of the European Union are waste noise air pollution water nature and biodiversity soil protection civil protection and climate change After the translation into national law the development of environmentally friendly products is a basic approach to contribute to the fulfilment of the topics mentioned above In the European Community a Communication from the Commission to the Council and the European Parliament on Integrated Product Policy was adopted on th 18 June 2003 EC 2003 *Global Product Development* Alain Bernard,2011-05-05 This book of proceedings is the synthesis of all the papers including keynotes presented during the 20th CIRP Design conference The book is structured with respect to several topics in fact the main topics that serve at structuring the program For each of them high quality papers are provided The main topic of the conference was Global Product Development This includes technical organizational informational theoretical environmental performance evaluation knowledge management and collaborative aspects Special sessions were related to innovation in particular extraction of knowledge from patents **Implications for sustainable product development in the outdoor apparel market** Andreas Jesda Jügel,t,2021-03-26 Diploma Thesis from the year 2010 in the subject Business economics Market research grade 1 3 Technical University of Munich language English abstract Over the past couple of decades environmental and social issues started to have a raising impact on corporate and marketing strategies Fundamental changes in business environments like rising public awareness about environmental issues tougher national and international regulations and foreseeable depletion of natural resources within the next few decades will sooner or later force the big players from all industries to rethink their strategies Thus they need to evaluate innovative product solutions that save scarce natural resources and reduce energy consumption during the entire product life cycle Taking corporate responsibility developing sustainable value chains and moving away from oil based resources will be of growing importance Thus incorporating sustainability into value chains increasingly becomes an issue across all industry sectors from automobiles to

textiles The engagement in sustainability marketing is an opportunity which helps to create a long term competitive advantage The challenge on the other hand is understanding the complexity of green consumerism and to implement the right strategic measures to overcome motivational issues to sell green products successfully The fact that marketing should combine environmental social and economic goals has also been realized in the fashion industry as the authors research and interviews with industry veterans proves This thesis is located at the interface between sustainability marketing and conservation psychology The purpose of this publication is to further the understanding of green consumerism in the context of environmentally friendly clothing *Sustainable Marketing Management - Functional Thinking, Marketing Vs. the Environment & Sustainable Strategies* Niklas Kürten,2007-11 Seminar paper from the year 2006 in the subject Business economics Marketing Corporate Communication CRM Market Research Social Media grade 1 7 G teborg University 48 entries in the bibliography language English abstract The aim of this essay is to describe and to discuss the implications of a functional orientation on product development and market communication Therefore firstly the definition as well as the reasons of the need of the implementation of functional orientation are shown Secondly the consequences and dangers of this approach on product development and market communication are presented and discussed Further the goal of the second part is to work out and describe the concepts of dematerialisation as well as functional orientation from a sustainable perspective Therefore the term dematerialisation is defined and a brief general overview about the current situation is given Secondly this approach as well as the approach of functional orientation will be presented and discussed out of a sustainable perspective Finally the aim of the last elaboration is to work out the paradoxes between the theoretical approach of marketing namely the foundations of marketing and the concepts and values of a sustainable society It will be conducted what problems might appear when these two approaches are brought together Therefore first of all the theoretical foundations of marketing are named and described Secondly the concepts and values of a sustainable society are shown and discussed After this the problems which are occurring when these two approaches are brought together are presented
