French Thrillers of the 1970s: Volume I--Crime Films Roberto Curti, Frank Lafond, 2026-03-11 The 1970s were a pivotal decade for thrillers in French cinema and crime films also known as polars in particular The genre reached its commercial peak with box office hits like Borsalino and Le Cercle rouge starring the country's top stars Jean Paul Belmondo and Alain Delon Key works appeared from renowned auteurs such as Jean Pierre Melville Henri Verneuil Rene Clement and Claude Lelouch and emerging young filmmakers Yves Boisset Philippe Labro Alain Corneau and Serge Leroy among others strove for the efficiency and visual dynamism of American cinema while often employing the crime genre as a tool for a more nuanced discourse depicting a nation in the throes of urban mutation and undergoing key political changes This book details all of the crime thrillers produced and released in France from 1970 to 1979 with a detailed production history and critical analysis of each title placing them within the social and political context of postwar French culture politics and cinema It includes never before seen bits of information taken from French archives

Hiding the Guillotine Emmanuel Taïeb, 2020-11-15 Hiding the Guillotine examines the question of state involvement in violence by tracing the evolution of public executions in France Why did the state move executions from the bloody and public stage of the guillotine to behind prison doors In a fascinating exploration of a grim subject Emmanuel Taïeb exposes the rituals and theatrical form of the death penalty and tells us who watched who participated in and who criticized and ultimately brought an end to a spectacle that the state called punishment France's abolition of the death penalty in 1981 has long overshadowed its suppression of public executions over forty years earlier Since the Revolution executions attracted tens of thousands of curious onlookers But gradually there was a shift in attitude and the public no longer saw this as a civilized pastime Why Combining material from legal archives police files an executioner's notebooks newspaper clippings and documents relating to 566 executions Hiding the Guillotine answers this question Taïeb demonstrates the ways in which the media was at the vanguard of putting an end to the publicity surrounding the death penalty The press had ample reason to be critical cities were increasingly being used for leisure activity and prisons for those accused of criminal activity The agitation surrounding each execution coupled with a growing identification with the condemned would blur these boundaries Ranked among the top hundred history books by the website Caf du Web Historizo Hiding the Guillotine has much to impart to students of legal history human rights and criminology as well as to American historians
