

Ideas About Evolution

In this lesson, we will learn about some of the different ideas that scientists and philosophers have had about whether 'theological' theory, or all things are created by God, has been built up and our current understanding of evolution.

You will be grouped into groups of three. Each of you will be given responsibility to read about one question or statement. You will be assigned read the information and to ready to discuss what you have learnt with the rest of your group.

Theories and Evidence for Evolution

Charles Darwin

While Darwin's theory of evolution is widely accepted today, at the time it was considered very controversial. Here, a cartoon designed with Darwin for the following reasons:

- 1. Even though Darwin had been collecting evidence to support his theory for 20 years, some thought that the evidence he had gathered couldn't be trusted as the way that we know the understanding of genetics that we have today is they did not have the kind of evidence for evolution we have in modern times.
- 2. His theory of evolution conflicted with religious beliefs of the time, so it disagreed with the idea of a created, unchanging world created by a divine being.
- 3. Many scientists supported Darwin by comparing theories, such as how features changed.

Big Question: How did life evolve?

Learning Outcomes:

What is evolution?

Evolution is the change in the characteristics of a population of organisms over time. It is the result of natural selection, genetic drift, and other factors.

Evolution is the change in the characteristics of a population of organisms over time. It is the result of natural selection, genetic drift, and other factors.

What is natural selection?

Natural selection is the process by which organisms with favorable traits are more likely to survive and reproduce, passing on those traits to their offspring.
