

During the rehearsal and development process for this task students are permitted to seek support and feedback from peer “mentors” (and in turn the student may work in the role of mentor for others). The role of the peer mentor should be to support the student in their practical exploration and in the preparation for the assessed presentation. They may ask questions and challenge the student to be clearer in the expression of their understanding of the world theatre tradition and their experiences of the process of practical exploration. This may involve question and answer sessions, support with choosing a moment of theatre, gaining feedback on the presentation and other structured coaching activities. Key interactions with peer mentors (who may or may not be members of the IB theatre class) must be clearly recorded in the theatre journal and addressed in the presentation where the student must reflect on how this support has impacted on their explorations and learning.

Other performers

This is an individual assessment task which requires each student to deliver a solo presentation. Other students or peers are not permitted to appear in the presentation.

Supplementary materials

Students can use any relevant and appropriate supplementary materials that will enhance the presentation of their research into performance and demonstrate the process of their explorations (such as projections, video extracts, handouts, images, props, photographs and so on). Where these are not clearly visible within the video recording of the presentation, students should submit them with the list of sources which is submitted as a requirement alongside the video recording.

Requirements of the video recording

As this external assessment is assessed on screen it is crucial that the video recording captures the full presentation. The video recording must be a continuous, unedited record and must capture any additional resources used during the task. The video camera must not be switched off at any point during the assessment task. More information and guidance on the video recording of internal and external assessments can be found in the Handbook of procedures for the Diploma Programme.

Audience

The audience for this task will be peers and, if possible, students of theatre. It is important for the audience to be open-minded, considerate and silent during each presentation. Because each student has a maximum of 15 minutes to present this assessment task, questions and interruptions are not allowed.

When presenting, students should find an opportunity to engage with their audience by being prepared, organized, coherent, committed and passionate about their chosen area of focus. Presenters should ensure they speak loud enough to be heard by both the live audience and the audience of the video recording. Where resources are used to enhance the presentation, copies of these resources should be submitted along with the list of sources (especially if these resources were not clearly seen or understood within the video recording). This could include PDF copies of presentation slides, projection images, handouts and photographs that may have been seen during the presentation.

Examples of possible scenarios, scenes or sequences

The table below outlines possible ways in which world theatre traditions and performance conventions could feasibly be explored through moments of theatre. These examples are for guidance only and are neither prescriptive nor restrictive.
