STAINLESS STEEL SINKS

This sink material is popular because it is a safe & readily available option. Thicker, sturdier, & stain-resistant, it can help facilitate temperature change effectively but may tend to be noisy.

NATURAL STONE SINKS

Made of either granite or marble, natural stone looks polished & shiny with a wow factor that stands out. While popular & durable, it can be expensive & requires regular sealing.

GRANITE COMPOSITE SINKS

Mainly made out of granite & mixed resins, this material is highly durable & low maintenance. It's structured to last for years, especially with proper sealing & maintenance.

ENAMEL KITCHEN SINKS

Formed with a combination of glass base & cast iron coating, this material is considered traditional & old-fashioned. It is smooth but is quite heavy & requires extra time and care.

QUARTZ SINKS

Ideal for traditional & transitional kitchen styles, this stone bits & resin mix is more affordable compared to natural stone. Highly durable, it's resistant to staining & chipping.

PORCELAIN SINKS

This traditional material is nonporous with a smooth and dense surface. With a timeless & classic appeal, it is durable, easy to clean, & stain-resistant but prone to cracking & chipping.
