**From Bharata to India** M. K. Agarwal,2012-05 The origin of world civilization can be traced to the Sindhu and Sarasvati river valleys located in present day Pakistan as early as 8 000 BC Here innovation and originality in every aspect of human endeavor from mathematics and science to art and sports flourished Yet the importance of this civilization known as the Vedic period has been deliberately downplayed Thoroughly researched and including an extensive bibliography From Bharata to India rectifies this mistake in the perspective of world history and seeks to offer a comprehensive reference source Author M K Agarwal shows how this early culture where ideation by enlightened philosopher Brahmin kings brought material and spiritual wealth that was to remain unchallenged until the colonial era This Vedic Hindu Buddhist legacy subsequently influenced peoples and paradigms around the globe ushering in an era of peace and plenty thousands of years before the Europeans By using original sources in Sanskrit as well as regional literature Agarwal compares corresponding situations in other civilizations within the context of their own literary traditions and records to prove that Bharata forms the basis of world civilization This is in direct contrast to the Greek or Arab miracle hypothesis put forth by numerous scholars The first of two volumes in this series From Bharata to India offers a fascinating in depth glimpse into ancient India s contribution to the modern world

*Aeroplane Science In Ancient India* Harsh Dev Kumar,2023-03-25 As it is said that the discovery of the airplane took place in the modern period but it is clear in various culture texts that even in the Vedic period and after that in the Ramayana Mahabharata period there were airplanes which were accessible to sage scientists Scientists from different countries of Europe America and other countries have written various books after doing various researches on the aircrafts of ancient times The evidence of the presence of airplanes in ancient times becomes clear from the various airstrips and aeroplane instruments found by the Archaeological Department The research done in the laboratories of India and in different countries regarding the book Varhad Vimana Shastra of Maharishi Bhardwaj the most authentic of ancient times on the aircraft also proves that the events described in this book and various Sanskrit books are true After reading various books I have presented a review study in which the Vedas Ramayana texts Mahabharata texts and other Sanskrit texts where the description of aircraft is described in brief Along with this the review study of the books which have been written by the scientists of different countries after doing their research have also been published in it Even in the modern period Shivkar Bapuji Talpade was the first to make an airplane for life it also describes it Along with this the list of various research papers and various texts etc This book will prove to be a book with ocean in the throat giving knowledge regarding ancient aircrafts Along with this research scholars and students studying on various aircraft will also enjoy reading and will get a lot of information
