With the implementation of the Belt and Road Initiative and the development of Guangdong Hong Kong Macau Greater Bay Area the demand for translators and interpreters continues to grow in China The breakthrough in artificial intelligence which has contributed to an enormous improvement in the quality of machine translation means challenges and opportunities for translators and interpreters as well as studies of translation and interpreting Studies of translation and interpreting have been further expanded and diversified in the era of globalized communications The interrelation between translation and globalization is essential reading for not only scholars and educators but also anyone with an interest in translation and interpreting studies or a concern for the future of our world's languages and cultures By focusing on the connection between the two various researches have been conducted in all forms of communication between languages including translation interpreting cross cultural communication language teaching and the various specializations involved in such activities This has resulted in The Third International Conference on Globalization Challenges for Translators and Interpreters co organized by the School of Translation Studies Jinan University on its Zhuhai campus and South China Business College Guangdong University of Foreign Studies November 16 17 2019 The response to the conference was once more overwhelming which was partly attributed to the previous two conferences held successfully under the same title Apart from five keynote speakers over one hundred and fifty participants came from universities institutions or organizations from mainland China Spain New Zealand as well as Hong Kong and Macao to attend the event contributing over 130 papers in total Among the keynote speakers are internationally renowned scholars in translation studies such as Dr Roberto Valde n professor of English Linguistics at the University of Oviedo Spain and the Chief Editor of *Perspective Studies in Translatology* Dr Sun Yifeng chair professor of
