Richmann, J. Lenore Wright, 2020-08-04 The call to teach means different things to different people This collection contends however that at the very least faithful work in the teaching vocation involves excellence commitment and community Representing diverse disciplines and institutional perspectives from a Christian research university the contributors present reflections based on personal experience empirical data and theoretical models This wide ranging collection offers insight encouragement and a challenge to teachers in all areas of Christian higher education Building upon the legacy of thoughtful teaching at Baylor University while looking toward the future of higher education this collection is framed for Christians who teach in higher education but who are also committed to research and graduate training Pose, Wobble, Flow Antero Garcia, Cindy O'Donnell-Allen, 2015-09-11 This book proposes a pedagogical model called Pose Wobble Flow to encapsulate the challenge of teaching and the process of growing as an educator who questions existing inequities in schooling and society and frames teaching around a commitment to changing them The authors provide six different culturally proactive teaching stances or poses that secondary ELA teachers can use to meet the needs for all students whether they are historically marginalized or privileged They describe how teachers can expect to wobble as they adapt instruction to the needs of their students while also incorporating new insights about their own cultural positionality and preconceptions about teaching Teachers are encouraged to recognize this flexibility as a positive process or flow that can be

used to address challenges and adopt ambitious teaching strategies like those depicted in this book Each chapter highlights a particular pose describes how to work through common wobbles incorporates teacher voices and provides questions for further discussion Pose Wobble Flow presents a promising framework for disrupting the pervasive myth that there is one set of surefire culturally neutral best practices
