This handbook presents a state of the art overview of dual language bilingual education (DLBE) research, programs, pedagogy and practice. Organized around four sections: theoretical foundations, key issues and trends, school based practices and teacher and administrator preparation, the volume comprehensively addresses major and emerging topics in the field. With contributions from expert scholars, the handbook highlights programs that honor the assets of language minoritized and marginalized students and provides empirically grounded guidance for asset based instruction. Chapters cover historical and policy considerations, leadership, family relations, professional development, community partnerships, race, class, gender and more. Synthesizing major issues, discussing central themes and advancing policy and practice, this handbook is a seminal volume and definitive reference text in bilingual second language education. **Questions and answers for the classroom**

BethAnne Paulsrud, Zhongfeng Tian, Jeanette Toth, 2021-01-20. It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging, different named languages and different policies. These studies include several underrepresented contexts across the globe providing a broad view of how translanguaging in EMI is understood in these educational settings. Furthermore, this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom.
