## **Executive Summary**

The executive summary provides an overview of the content contained in the feasibility study document. Many people write this section after the rest of the document is completed. This section is important in that it provides a higher-level summary of the detail contained within the rest of the document.

Alan's Best Chocolates (ABC) is a leader in the sales of chocolates and confections throughout the United States. ABC's products are sold from 50 stores throughout the country and maintain a reputation for superior taste and quality. While ABC's sales have grown over the past 10 years, the rate of growth has slowed significantly. One key factor for this slowing growth rate is the shift in the marketplace to purchasing chocolates and confections online. While ABC maintains a web site, it is not capable of hosting an e-commerce platform for online sales. ABC's sales occur only in its brick-and-mortar facilities and the company is losing potential customers to competitors who provide online sales. The chocolate and confections marketplace are healthy and shows a continued growth trajectory over the next five to ten years. ABC is in a position to capitalize on this online marketplace by leveraging existing technologies, industry best practices, and an aggressive marketing and sales campaign to ramp up the company's growth projections for the foreseeable future.

## **Description of Products and Services**

This section provides a high-level description of the products and/or services which are being considered as part of the feasibility study. The purpose of this section is to provide detailed descriptions of exactly what the organization is considering so this information can be applied to the following sections of the document. It is important that this description captures the most important aspects of the products and/or services that the organization is considering as well as how it may benefit customers and the organization.
