

Week 1

Diagnostics / Review

Part 1: Diagnostics

- Take the free diagnostics for all subjects
 - Math
 - Grammar
 - Vocabulary
 - Biology
 - Reading
 - Anatomy & Physiology (AAP)

Review your results:

For topics where you scored well, check these items and only make additional practice if you are still getting a low score.

For topics where you scored low, read your objectives in these sections and make flashcards for all of the material listed to review throughout the month leading up to your exam.

For the items you did well on, study your associated test objectives closely. If you score 80% or above on a test, it means you are doing better than 80% of test takers. You can now skip that part of your study plan, concentrate on other areas, and have time to rest.

You can also check topics which you scored lower on the diagnostics to see what a low score could mean for you based on the results of your exam.
