## Curriculum Guide for Parents

The Common Core State Standards (also known as the North Carolina Standard Course of Study) focus on English/Language Arts and Mathematics, and integrate literacy in all subject areas. The North Carolina Essential Standards provide standards for Social Studies, Science, Information and Technology, Arts Education, Healthful Living, and other subject areas. These standards describe what students are supposed to know from kindergarten through 12th grade. Each year builds on the next so that by high school graduation, young people are prepared to go to college or to enter the workplace.

The purpose of this brochure is to provide information to parents about what students will be expected to know and be able to do during their year in the first grade.

## English/Language Arts

The Common Core State Standards set goals for student mastery in language arts. The study of language arts includes reading, writing, speaking and listening. Language arts expectations are established for each grade across all subjects including science, history, social studies and technical subjects. The standards include examples of appropriate books for students to read at each grade level in literature and informational texts. Informational texts include literary nonfiction and historical, scientific and technical texts. Teachers will choose the reading assignments for their students using the examples as a guide.

### Other Curriculum Areas:

#### INFORMATION AND TECHNOLOGY

Students will learn to work with sources of information and informational text. They will use technology as a tool and understand the research process. Students will understand safety and ethical issues.

#### HEALTHFUL LIVING

Students will learn about feelings, nutrition, and physical activity. They will understand safety and will work on motor skill development, movement concepts, health-related fitness, and personal/social responsibility.

#### MUSIC

Students will exemplify musical literacy. They will understand how to respond to music. Students will understand how music is relevant in many contexts.

#### VISUAL ARTS

Students will use the language of visual arts to communicate effectively. They will apply creative and critical thinking skills to artistic expression, and will understand the interdisciplinary connections and life applications of the visual arts.
