HOW TO CALL FOR HELP

Stay calm. Getting hysterical often panics the victim, hinders communication with emergency medical personnel and causes even more harm and delay.

- The nature of the emergency or injury
- The number of people involved
- Your name
- Ages and gender of victims involved

BROKEN/DISLOCATED BONES AND FRACTURES

Treatment:

- Seek medical attention
- If victim must be moved, immobilize the injured area first
- If an arm or leg is involved, splint the part in the position in which it was found before moving the victim; do not attempt to straighten the limb
- Use folded blankets or towels around the area to aid immobilization
- If it is an open fracture (one where the bone breaks through the skin), control bleeding (see "Bleeding Wounds," page 2)
