**Java EE 8 Recipes** Josh Juneau,2018-06-11 Quickly find solutions to dozens of common programming problems with the Java Enterprise Edition Platform for small business web applications enterprise database applications and microservices solutions Content is presented in the popular problem solution format Look up the programming problem that you want to solve Read the solution Apply the solution directly in your own code Problem solved

Java EE 8 Recipes provides you with effective and proven solutions that can be used to accomplish just about any task that you may encounter. You can feel confident using the reliable solutions that are demonstrated in this book in your personal or corporate environment. Java is a mature programming language that has been refined over the years into a productive and lucrative language for those with the skills to wield it. One result of this year's long refining process is that the language carries forward many older feature sets that no longer represent the best way of getting work accomplished. You can rest assured that Java EE 8 Recipes provides solutions using the most current approaches implemented in the most current Java Enterprise technologies including JSON P 1.1, JSF 2.3 and JAX-RS 2.1. Build a streamlined and reliable application that uses the latest in Java technologies and develop it much faster than you did with the older technologies. Rejuvenate your Java expertise to use the freshest capabilities or perhaps learn Java Enterprise development for the first time and discover one of the most widely used and most powerful technologies available for application development today. Develop productively. Develop with proven technology. Develop with Java Enterprise Edition. The book teaches how to develop RESTful enterprise applications quickly using the most current Java EE technologies. Explores different solutions for developing sophisticated web user interfaces. Walks you through a myriad of different concepts to apply while working with databases using Java technologies. What You'll Learn. Develop Java Enterprise applications using the latest in Java EE technologies. Build great looking user interfaces using Java Server Faces. Employ Java Servlet technology and standard frameworks in developing professional web applications. Create enterprise level database applications using Enterprise Java Beans and JAX-RS RESTful web services. Make use of Arquillian to build a cohesive test suite for Java EE applications. Manage Java EE application security through Java EE's container feature set. Who This Book Is For. Java developers who want to develop effective and proven solutions without reading a lengthy manual and scrubbing for techniques. A beginning Java programmer will find the book handy for learning a variety of different solutions for the platform while advanced developers will enjoy the ease of the problem solution approach to quickly broaden their knowledge of the platform's latest technologies.

*JavaServer Faces: Introduction by Example* Josh Juneau, 2014-12-09. This book is about using JavaServer Faces to create and deploy interactive applications delivered to end users via a browser interface. JavaServer Faces is the component based technology enabling easy development of such applications especially applications of the type commonly needed in enterprise environments. *JavaServer Faces Introduction by Example* is a to the point 250 page introduction to an important technology that every Java Enterprise Edition programmer should know and be able to use. *JavaServer Faces Introduction by Example* takes you through building and deploying servlet based web pages built around JavaServer Faces. Facelets, managed Java Beans and prebuilt user interface components. You'll learn to build user interfaces that run in the browser to display data drawn from corporate databases, accept user input, deal with errors and exceptions, and more. JavaServer Faces is an important user interface technology for any Java developer to learn who works in an enterprise environment. *JavaServer Faces Introduction by*
