 This is the eighth year that the Agent Oriented Information Systems AOIS workshops have been held Papers submitted to
 AOIS show an increase in quality and maturity as agent technology is being increasingly seen as a viable alternative for
 software and systems development In AOIS we focus on the application of agent technology in information systems
 development and explore the potential for facilitating the increased usage of agent technology in the creation of information
 systems in the widest sense This year's workshops were held in conjunction with two major international computing research
 conferences the first in May 2006 was affiliated with the AAMAS conference in Hakadote Japan and chaired by Garcia Ghose
 and Kolp The second was held in conjunction with the international CAiSE conference held in Luxembourg June 2006 and
 chaired by Bresciani Henderson Sellers and Mouratidis Details of all preceding workshops are to be found at <http://www.aois.org>
 The best papers from both these meetings were identified and authors invited to revise and extend their papers in light of
 the reviewers comments and feedback at the workshop Following submission to this compendium volume another round of
 reviews was undertaken resulting in what you can read here These re reviews were undertaken by three members of the
 Programme Committee we wish to thank both the authors for undertaking the necessary revisions and the reviewers for this
