Model 44758 Remote Sensor
Owners Manual

Your Model 44658/44665 thermostat can read the temperature from up to three weather-resistant sensors at a distance of up to 75 feet.

Notes: Distances may vary based on building construction or other interfering frequencies.

You can control the temperature from one indoor sensor and/or thermostat, with the second and third being a sensor only. If you use multiple sensors, you might want to write a number on the back of each sensor. The remote sensors are designed to either be mounted on a wall, or set on a desk or side table.

Consult the Thermostat Instruction Manual for instructions in setting the thermostat to accommodate the remote sensor.

You may also download directly from Hunter Fan Company at www.hunterfan.com/support.
