Review your results:

For topics where you scored well, check those the answer and try some additional questions to ensure that you are getting it right on your own.

For topics where you scored lower than you intended or than you are, read them over. For all of the incorrect questions, re-read throughout the week leading up to your exam.

For the areas you did not take your study assessment on, read through the diagnostic. If you were able to answer on a topic, it means you are able to answer them on the exam. You can now skip that part of your study plan, otherwise it will be back on your exam.
