

B. Write up this profile in narrative form. The following is an example:

“Clara is a 52-year-old woman who lives in the Bronx, NY. She was experiencing fatigue, blurred vision, and a wound on her foot that was not healing properly. Blood tests at her local health clinic revealed that she has type 2 diabetes. Clara is overweight and has a family history of type 2 diabetes – her father died of complications from the disease when he was 64 and two of her cousins suffer from the disease as well. Clara's dietary behaviors and lack of physical activity have also contributed to her problem. Her diet generally consists of high-fat, processed foods which she buys at her local deli and supermarket. She thinks the vegetables and fruits that are available look “old” and “spoiled” so she does not regularly buy them. She also has trouble walking due to the side effects of her diabetes which means that she is not getting enough daily physical activity. Clara lives in subsidized housing in a low-income neighborhood. She was also recently fired from her job as a teacher's assistant given the school district's budget cuts. She feels that she will need regular medical care, but she doesn't have a doctor she trusts. She could go to the local health clinic for regular medical care, but her neighborhood is unsafe and she feels nervous walking by herself.”
