

THE BASE STATION AT A GLANCE

Each dot indicates a screen, blue is the one currently visible. Click on a dot or swipe/drag the screen to the left or right to view other screens.

INTRODUCTION

Congratulations on your investment! You are now equipped with the best wireless headset system available for your business needs. The interactive HOME screen provides you with a complete overview of your system at a glance. Innovative smart features enhance ease of use while color-coded indicators provide a quick visual status of a feature or component.

A green indicator means that the feature/component is online, active, and functional. In this example, the Speaker/Microphone is connected and functioning properly.

A red indicator means that the feature/component is offline, inactive, or requires attention. In this example, there are no headsets detected. Turn on a headset and pair one for this indicator to turn green.

A yellow indicator is a transitional state. In this example, the transceiver is scanning for available channels. Once an available channel is found, it turns green (this can take a few minutes).

A gray indicator means that no AC70 Smart Battery Charger is detected. Position the AC70 within 10 feet (3 m) of the base station for this indicator to turn green. Note: the AC70 can function independently (it does not require a base station connection to function).
