Reflections on Europe Hans-Åke Persson,Bo Stråth,2007 When Dutch and subsequently French voters rejected the Draft Treaty for a Constitutin for Europe in Spring 2005 many voices called for a pause for reflection This book is in part a result of that

moment of reflection We wanted to contribute to the debate about Europe but crucially we sought to do so by taking a step back from the problem formation and agenda setting of Brussels For the authors of this volume one key to establishing critical distance has been the reappraisal of the historical perspective Another has been the problematisation of Europe as a space as opposed to looking for a definition of borders The authors also seek critical distance through a focus on the tension between Europe as a culture as a polity and as an economy These tensions have often been neglected or even ignored and the relationships have been seen as more or less synonymous and harmonious The aim of this volume then is two fold It wants developing a critical distance to the present Europe to contribute to the vivid academic research and debate on Europe which too often either develops distance without commenting on the present state of affairs or comments on the present without critical distance
