

Tata Steel Ltd

Raise estimates & PT as Europe continues to pick up, while India stabilizes; Could be FCF positive in FY15E

TATA's leverage in a European recovery goes beyond steel EBITDA/T, in our view. Reported EPS could improve sharply in two rates scenarios, and the higher EBITDA from Europe would likely result in TATA being FCF positive in FY15E (even as we hold in capex of ~\$1200m and no asset sales). Stronger equity market in Europe combined with higher interest rates should also lead to a better premium structure (over dollar). We increase TATA Europe EBITDA for FY15E to ~\$740m (EBITDA/T ~\$11/T) from ~\$690m earlier. We see large upside risks to our European estimates, if a) current spreads were to narrow for the full year, and b) if long product demand recovery starts in Q1'14E. We raise our PT to \$2000 (based on FY15 EBITDA).

- Even if current spreads do not narrow, there is significant upside to our TATA Europe estimates: January was a unique month, as the rates that spreads widened markedly in Europe as steel prices increased, even as raw material prices were falling. We do not expect this to continue, but we see upside risks to our estimates, primarily driven by demand, particularly Long steel. TATA has installed capacity in Long steel in UK, and continued demand revival of these capacities could drive significant upside to our Short-term estimates. Every ~10M-T increase in EBITDA effectively adds ~\$240 to our PT.
- India should remain steady, we see little risk of any disruption from Steel Commission: We do not see any disruption to TATA's iron ore operations. Our average forecasts are not building in a big domestic recovery and hence we expect decrease in import parity price to remain, though narrow. While there are worries about a steep iron ore price fall as HD-rolling global HRC steel prices below \$100/T, we would highlight that: a) weaker D-OX remains supportive for local prices, and b) there is upside risk to ~~FY15E steel demand estimates~~.
- Even with \$1200m capex estimates, TATA could turn FCF positive: We are not building in asset sales and the group investment and Dividend Pay are embedded option values in the balance sheet which could be monetized if required. We do not give any value to them.
- What to expect in earnings on Feb 11: We expect consolidated EBITDA of \$245.7m, 1% company coupled consensus of \$237.9m while our TATA Europe EBITDA/T is at ~\$11.1/T consensus at ~\$10/T.
- Remains OW: TATA remains the most levered stock in any European recovery and we believe a recovery is NOT yet priced into the stock.

How To Write Equity Research Report:

Writing Securities Research Jeremy Bolland, 2011-09-07 There is a strong need for this book by Jeremy Bolland which dissects all issues relating to securities research. The requirement for better research does not only apply to the US securities market but to securities markets all over the world. This book is relevant in any setting. It will equip analysts with many useful tools to help them achieve success. Mark Mobius, President, Templeton Emerging Markets Fund, Jeremy Bolland's book is essential reading for all people involved in writing securities research. Moreover, it is not just a technical and legal guide but also a timely reminder of the principles of good writing. Andrew Leeming, Author of *The Super Analysts*, Knowing your ratios and spreadsheets is no longer enough to become an investment analyst. As Jeremy Bolland points out, you need to know your do's and don'ts of how to approach clients and companies. This guide to doing it properly is an obvious selection for the bookshelf of anyone who aspires to offer investment advice and a fine reference for anyone who receives such advice. Jake van der Kamp, Financial Columnist, South China Morning Post. At last here's a comprehensive yet easy to read guide explaining all the best practice principles involved in writing securities research. It is full of useful information. If all securities analysts followed the guidance that has been clearly laid out in this book by Jeremy Bolland, research enforcement regulators around the world would be out of a job. Anyone who is involved in writing and publishing research or using research for investment decisions from the novice to the expert should read this book. I highly recommend it. Anthony Espina, Chairman, Hong Kong Stockbrokers Association.
