Life Science Rhino Poaching Memo:

The Animal Code Danny Crossman,2011 Illustrates the myriad ways in which humans exploit animals making a compelling case for people to recognise animals needs and feelings In a breakthrough concept The Animal Code sets out a clear guide for how each of us can treat animals with respect and also help our environment **Parade of Life** ,1993 **AF Press Clips** ,1966-12-28 **Transdex Index** ,1994 An index to translations issued by the United States Joint Publications Research Service JPRS **Yearbook of International Organizations 2014-2015, Volumes 1A And 1B (SET)** Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **Annuaire Des Organisations Internationales** , *Rhinos of the World* Mario Melletti,Bibhab Talukdar,David Balfour,2025-02-20 This book represents the culmination of more than four years of work by many rhino experts primarily from Africa Asia the United States and Europe involved in rhino conservation research and management It is one of the most comprehensive reference works ever published on the systematics ecology conservation status and management of all rhinoceros species Covering all five rhino species worldwide this volume brings together the contributions of 92 international rhino experts and provides A comprehensive overview of the current state of knowledge on the evolution phylogeny systematics and fossil record of rhinos An in depth look at the ecology and conservation status of each species with detailed chapters A series of case studies on conservation management poaching horn trade and ex situ programs This beautifully illustrated book is an invaluable resource for researchers wildlife managers and professionals in conservation biology ecology and management as well as the general public It reveals the fascinating story of rhino evolution the long history of human interactions with rhinos and the major threats to these iconic species **Operation Lock and the War on Rhino Poaching** John Hanks,2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF s head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In *Operation Lock and the War on Rhino Poaching* John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching **Saving the Last Rhinos** Grant Fowlds,Graham Spence,2020-05-05 The remarkable story of Grant Fowlds who has dedicated his life to

saving the imperiled rhinos vividly told with Graham Spence co author of the bestselling *The Elephant Whisperer* What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam Shavings of rhino horn are sold as a snake oil cures but a rhino s horn has no magical medicinal properties whatsoever Yet it is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction Growing up on a farm in the eastern Cape of South Africa Grant developed a deep love of nature turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild right now against armed poachers and in the long term through his work with schoolchildren communities and policymakers
