

Section 1

Look at the example question below. On the left, there are two figures that are alike. On the right there are five more figures: one of these is **most like** the two figures on the left and its letter has been marked on your answer sheet.

Example

Answer: C

The two shapes on the left are alike in having the same number of circles as they have lines. In both cases, all circles are black.

Now do the two practice questions below.

P1

The two figures on the left show a grey shape which is rotated 90° clockwise as we move clockwise around the corners. In both cases, the corner shapes have only one line of symmetry.

P2

The two figures on the left show two identical shapes and an arrow, both shapes being of the same colour. The arrow acts as a line of symmetry, the shapes being reflected across it.
