Scott,2022-11-04 Do you ever feel like you re spinning plates We re not speaking in literal terms of course unless you happen to be a circus performer Instead we re referring to those hair pulling moments in life and especially at work when it feels like you ve got a million things to do at once and you need to keep them all in balance But you can t just let a single plate drop because that could lead to a catastrophic domino effect resulting in well a lot of smashed plates No to keep every single one

of those plates spinning you need to know where to direct your attention and when it's here that we come to that magical and seemingly mythical term prioritization. It's something we all know we should be doing. But implementing a system that works. That's another matter entirely. Read along as I'll be talking more on prioritization and how you can prioritize your work and life.

That original publication describes a methodology coming out of years of collaboration between INRA and ISNAR. The history of that effort is well described below by the director general of INRA of that time. Since 1993 ISNAR has extended its collaboration with in a number of new domains with the full support and guidance of INRA's present director general, Arifi. Recognizing that the approaches developed jointly with Morocco can serve other developing countries, he has allowed INRA experts to participate in program formulation and priority setting exercises in other areas forthcoming in the framework of this continued collaboration.
