GIScience Teaching and Learning Perspectives Shivanand Balram, James Boxall, 2019-01-31 This volume uniquely links educational theories and the practice of GIScience in higher education contexts to guide classroom practice present effective practical implementations from peers and provide resources and strategies for effective teaching methods The book offers a comprehensive exploration of GIScience education including current trends and future educational needs in GIScience and will act as a resource to prepare learners for a world that demands more intensive investment in present day education and technological literacy Additionally the indirect benefit of merging the fragmented literature on GIScience literacy will provide a basis to examine common techniques and enable a new wave of research more rooted in learning theories In ten chapters the book is designed to attract an audience from geographic information systems science geomatics spatial information science cartography information technology and educational technology as focus disciplines

Cartography - Maps Connecting the World Claudia Robbi Sluter, Carla Bernadete Madureira Cruz, Paulo Márcio Leal de Menezes, 2015-07-10 This book is an important volume in the series on the state of art research in Cartography and GIScience It is a collection of selected peer reviewed papers organized into contemporary topics of research presented at the 27th International Cartographic Conference ICC in Rio de Janeiro This is the 3rd edition of selected ICA conference papers published by Springer Lectures in Geoinformation and Cartography The conference topic is maps connecting the world and Brazilian cartographers and geo information scientists are honored to welcome their peers from all over the world to the event which will present some of the most important recent advances in cartography research and GIScience The most relevant papers will be selected for the Springer book and these will be organized into five sections according to topic area to provide a valuable cartography and GIScience reference work

Pennsylvania Government and Politics Thomas J. Baldino, Paula A. Duda Holoviak, 2024-03-12 This book provides a comprehensive examination of the Keystone State s formal and informal political institutions and players past and present and elucidates the place each holds in governing the commonwealth today Covering a period of more than three hundred years this volume presents a clear and succinct overview of the commonwealth s political history culture and geography interactions between office holders civil servants special interest groups and the media policy development and implementation how laws are created enacted and enforced hierarchy and interaction among state county local and special district government bodies and officials tax collection and disbursement and the political upheaval in the wake of the COVID 19 pandemic and the 2020 presidential election Featuring practical appendixes and interviews with current and past office holders bureaucrats party leaders and political journalists this astute and informative book is an indispensable tool for understanding politics in the Keystone State

Negotiating Cultural Diversity in Afghanistan Omar Sadr, 2020-01-09 This book analyses the problematique of governance and administration of cultural diversity within the modern state of Afghanistan and traces patterns of national integration It explores state

construction in twentieth century Afghanistan and Afghan nationalism and explains the shifts in the state's policies and societal responses to different forms of governance of cultural diversity The book problematizes liberalism communitarianism and multiculturalism as approaches to governance of diversity within the nation state It suggests that while the western models of multiculturalism have recognized the need to accommodate different cultures they failed to engage with them through intercultural dialogue It also elaborates the challenge of intra group diversity and the problem of accommodating individual choice and freedom while recognising group rights and adoption of multiculturalism The book develops an alternative approach through synthesising critical multiculturalism and interculturalism as a framework on a democratic and inclusive approach to governance of diversity A major intervention in understanding a war torn country through an insider account this book will be of great interest to scholars and researchers of politics and international relations especially those concerned with multiculturalism state building nationalism and liberalism as well as those in cultural studies history
