HP DesignJet T850 Printer Series

Assembly Instructions

3 people are required to perform certain tasks

Time required for assembly of the printer is approximately 90 minutes
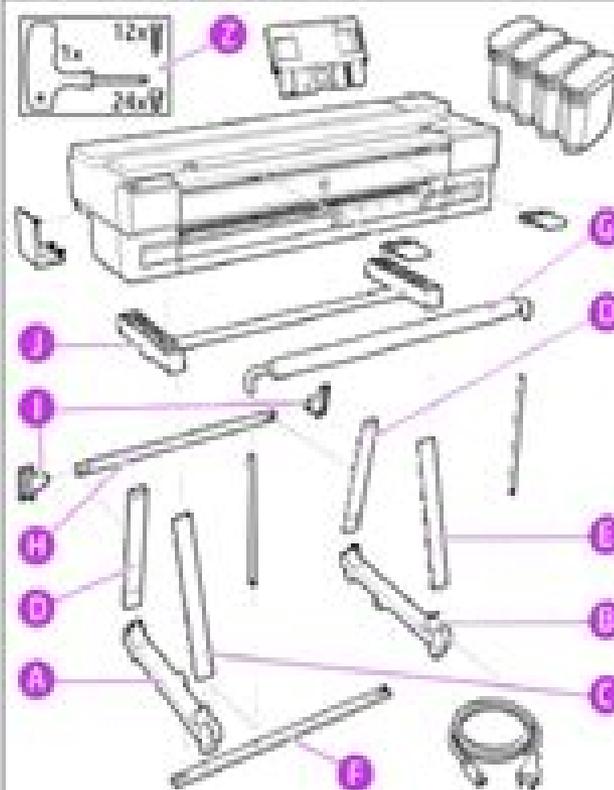

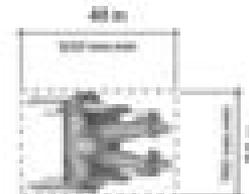

Tools required: 1/Q screwdriver (included)

Please read these instructions carefully. These assembly instructions explain how to assemble the printer. Notice that the icons used in this document are also located on the printer packaging. The icons help you locate the parts needed at each stage of the assembly. Because spare screws are supplied, some screws may remain unused after assembly of the printer.

Product working area
Before you start unpacking, consider where you are going to put the assembled product. You should allow some clear space on all sides of the product box. The recommended clearances are shown in the illustration. To assemble the product you will need at least 3 x 3 m (118 x 118 in) of empty floor space.

To ensure an accessible operating area for printer use, it is recommended to leave a minimum clear space of 760 mm (30 inches) by 1220 mm (48 inches) with an even level around the sides of the printer. Light reflection (glare) could affect the readability of the control panel; to improve the visibility, select the most suitable theme (dark/light) in the Control Panel.
