Day of the Event

Registration

As Data Coordinator, you will be in charge of registering the screeners and recorders as they arrive. Name badges will be issued to the screeners at the time of registration; you and the Site Coordinator should agree beforehand on who (e.g. you or the registrar) will issue the badge to the screeners and recorders.

Keep track of how many screeners were trained. Be sure that all screeners and recorders sign in on a master list, and include their telephone numbers and addresses.

Everyone should be available at the screening tables for each screener/recorder team to use as a reference throughout the day.

Be sure that all volunteers know the type of event, and any criteria for filling out additional information (site user) on the Screening Form.

Training

You will assign a unique three-digit Examinee ID number (starting with 001) to each screener as he/she arrives for the demonstration training. Writing this number on the badge is invaluable in helping the screener remember his/her number and in identifying which screeners have or have not completed the demonstration training.

For your presentation, you may want to offer some introductory remarks on why Special Olympics wants to conduct data, and how it could be useful locally. Explain briefly why and how data is standardized (refer to the attached sheet, "Why Standardize?"). The key point to emphasize is the reason for the necessity of setting aside professional clinical judgment to examine and diagnose individuals, and screen according to the case definitions in 'diagnose' a population. Then go through the Case Definitions and Instructions Section in the manual.

After your presentation, pass out the standardization exercises and allow the screeners a few minutes to complete it individually. Go over complete it as a group. The answer sheet for it in the back section of the manual. Instruct the screener to fill out the distributed copy of the standardization exercises rather than the exercise in the manual. The exercise will be a starting point for discussion as you go through their responses for the answers. The exercises and the questionnaire on the last page continue to be used to evaluate the training process; collect the exercises and send them to the specified address.

The Screening Process

Remain near the screening area to answer any questions and to train any screeners who arrive after the training session.

Screeners may be asked to screen coaches coming through with their teams. This is a courtesy screening only. Do not fill out a Screening Form for anyone other than athletes, as they are the only group for which data are being collected at this time.
