The Holocaust

Reaction Paper One

1/26/23

I feel as though I have a relatively good understanding of The Holocaust, I even thought I had more knowledge and insight than others to be honest. But just after reading the first chapter of "The Holocaust" I have come to realize that my understanding of it was base level at best.

To begin I thought that the only people who were put into concentration camps to be killed were Jewish people. I had zero clue that they also targeted gypsies, handicapped people, political opponents, among many more. It was also news to me that the Nazis had hostility toward Europeans of African descent, Slavic people, Jehovah Witnesses, and homosexuals.

My knowledge up until now was that the Nazis were primarily made up of people who were of the German descent and them only, but I now know that they consisted of people who came from all over Europe and some even farther away. The same thing goes for not only the Nazis themselves but their victims, perpetrators, bystanders, and beneficiaries. I also never really thought about the vocabulary problem that is brought up in the book. Funny isn't the right word but you think about the things you might be feared to be labeled as an American because of other people's views such as "a racist" or "a homophobic" or even your political party so it's interesting to wonder if people from Europe feared about being labeled as a Nazi or maybe it could have even been the other way around.
