

ITIL service transition processes

This slide represents the processes of ITIL, service transition, including transition planning and assistance, change management, service resources and configuration management, and so on.

Transition Planning and Assistance

Aids in the planning and coordination of resources required to deploy a significant Release within budget, timing, and quality constraints

Change Management

Aids to control all Changes' lifecycles, allowing for beneficial Changes to be implemented with little impact on IT services

Service Resources and Configuration Management

Keeps track of the configuration items needed to offer an IT service, as well as their connections

Release and Deployment Management

Aids in the planning, scheduling, and managing releases to test and production environments

Service Validation and Testing

Assists in ensuring that released Releases and the services that follow match customer expectations and ensuring that IT operations can support the new service
