

# Median cover prices, ALL COMICS

Price increases hit hard and fast in the late 1970s, coming nearly annually from the major publishers. "Still only" preceded the prices labeled on many comics, a sure harbinger that prices would **not** "still" be at that level in a few months. One reason the mid-1980s may be better regarded by some fans is simply the relative stability in pricing that prevailed for a few years.

But in the mid-1980s, something else happens: The median cover price among **all** comics goes to Mars. It's a direct result of the black-and-white explosion of 1986-1988 — and those three years see the median price of all comics go up by more than a dollar, given the greater expense of independent comics.
