**Saint Christopher Wall Paintings in English and Welsh Churches, c.1250-c.1500**  
Eleanor Elizabeth Pridgeon, 2010 This thesis is a comprehensive reassessment of the role of Saint Christopher wall paintings in English and Welsh churches Although the study focuses primarily on parish churches where the majority of mural paintings survive it also considers cathedrals abbeys and other medieval buildings where such imagery is extant or documented Welsh churches are also examined where appropriate though there are only a few surviving Saint Christopher images in this geographical area The investigation spans the period from the emergence of Saint Christopher representations in illumination c 1250 to the beginning of the sixteenth century when wall painting depictions of the saint were at their zenith c 1500 for sake of convenience The thesis begins with an examination and assessment of universal image function and reception in medieval church and society This is a central issue to the study of churches and it is therefore necessary to dedicate a whole chapter to the subject Through the examination of individual paintings and documents relating to specific churches the thesis then goes on to focus on three main themes related to Saint Christopher and his cult First it considers the role of Saint Christopher wall paintings and other types of images where appropriate secondly the location of Saint Christopher murals within church buildings and thirdly the different methods of patronage associated with the wall paintings The survey also establishes a long overdue and revised chronology of the entire corpus of Saint Christopher wall paintings based on an examination of architectural documentary and visual evidence and on comparisons with other types of media from England and the Continent such as sculpture illumination and woodcuts Most murals can be dated to within the nearest quarter or third of a century and to the nearest century if the date of execution is uncertain

**Medieval Wall Paintings**  
Roger Rosewell, 2014-02-10 The medieval wall paintings that remain in English churches are for the most part shadows of their former selves the rare fragments of this beautiful art to have survived not only the Reformation but also successive waves of iconoclastic zeal and unsympathetic restoration The whitewashed walls of most parish churches belie the riot of colour and decoration that once adorned them but the remnants of paintings tucked into corners or rescued from later layers of paint help us to understand the role of art in medieval religion Roger Rosewell here offers a guide to the role played by medieval wall paintings as religious didactic and commemorative works of art telling the stories of those who created them and those who used them on a daily basis He also compares and contrasts religious and domestic wall paintings using beautiful colour photography throughout

*The Angel Roofs of East Anglia* Michael Rimmer, 2015-08-27 Shortlisted for the East Anglian Book Awards 2016 It has been estimated that over 90% of England's figurative medieval art was obliterated in

the image destruction of the Reformation Medieval angel roofs timber structures with spectacular and ornate carvings of angels with a peculiar preponderance in East Anglia were simply too difficult for Reformation iconoclasts to reach Angel roof carvings comprise the largest surviving body of major English medieval wood sculpture Though they are both masterpieces of sculpture and engineering angel roofs have been almost completely neglected by academics and art historians because they are inaccessible fixed and challenging to photograph The Angel Roofs of East Anglia is the first detailed historical and photographic study of the region s many medieval angel roofs It shows the artistry and architecture of these inaccessible and little studied medieval artworks in more detail and clarity than ever before and explains how they were made by whom and why Michael Rimmer redresses the scholarly neglect and brings the beauty craftsmanship and history of these astonishing medieval creations to the reader The book also offers a fascinating new answer to the question of why angel roofs are so overwhelmingly an East Anglian phenomenon but relatively rare elsewhere in the country

*Religious Education in Thirteenth-Century England* Andrew Reeves, 2015-06-02 In Religious Education in Thirteenth Century England Andrew Reeves examines how laypeople in a largely illiterate and oral culture learned the basic doctrines of the Christian religion Although lay religious life is often assumed to have been a tissue of ignorance and superstition this study shows basic religious training to have been broadly available to laity and clergy alike Reeves examines the nature availability and circulation of sermon manuscripts as well as guidebooks to Christian teachings written for both clergy and literate laypeople He shows that under the direction of a vigorous and reforming episcopate and aided by the preaching of the friars clergy had a readily available toolkit to instruct their lay flocks

*Cross and Culture in Anglo-Norman England* John Munns, 2016 An examination of the passion and crucifixion of Christ as depicted in the visual and religious culture of Anglo Norman England The twelfth century has long been recognised as a period of unusual vibrancy and importance witnessing seminal changes in the inter related spheres of theology devotional practice and iconography especially with regard to the cross and the crucifixion of Christ However the visual arts of the period have been somewhat neglected scholarly activity tending to concentrate on its textual and intellectual heritage This book explores this extraordinarily rich and vibrant visual and religious culture offering new and exciting insights into its significance and studying the dynamic

relationships between ideas and images in England between 1066 and the first decades of the thirteenth century In addition to providing the first extensive survey of surviving Passion imagery from the period it explores those images contexts intellectual cultural religious and art historical It thus not only enhances our understanding of the place of the cross in Anglo Norman culture it also demonstrates how new image theories and patterns of agency shaped the life of the later medieval church John Munns is a Fellow of Magdalene College Cambridge
