The Struggle for Influence in the Middle East Federica Bicchi, Benoit Challand, Steven Heydermann, 2018-02-02 This collection of research papers explores the impact of the Arab uprisings on the politics and political economy of foreign aid provision in the MENA region Contributions focus on the foreign assistance policies and strategies of key donors United States Europe Gulf countries and Turkey and on the relationship between donors and recipients of foreign aid in a select set of MENA cases Tunisia Egypt Palestine and to a lesser extent Morocco Despite widespread rhetoric among lead donors pledging to support the transformational potential of the Arab uprisings the contributions find a more complex pattern in foreign aid provision since 2011 Among Arab donors who have played a significant role as providers of aid to states most affected by mass protests trends in foreign assistance reflect the competing priorities of donors and their willingness to politicize aid provision in pursuit of their strategic interests Among Western donors authors find a high degree of continuity Chapters that focus on Western donors seek to account for continuity on the part of Western governments and the EU at a moment of profound transformational potential Two factors bureaucratization and securitization capture most of the explanations provided which take into account a variety of local dimensions as well Contributions also discuss the changing assistance environment namely the globalization of foreign assistance the complex bureaucratic arrangements presiding over the delivery of European and US aid and the role of regional and international non democracies in the provision of foreign assistance This book was published as a special issue of Mediterranean Politics *Grappling with the Multifaceted World of the DNA Damage Response* Antonio Porro, 2017-01-10 DNA damage is a major threat to genomic integrity and cell survival It can arise both spontaneously and in response to exogenous agents DNA damage can attack most parts of the DNA structure ranging from minor and major chemical modifications to single strand breaks SSBs and gaps to full double strand breaks DSBs If DNA injuries are mis repaired or unrepaired they may ultimately result in mutations or wider scale genome aberrations that threaten cell homeostasis Consequently the cells elicit an elaborate signalling network known as DNA damage response DDR to detect and repair these cytotoxic lesions This Research Topic was aimed at comprehensive investigations of basic and novel mechanisms that underlie the DNA damage response in eukaryotes **Faith, War, and Violence** Gabriel R. Ricci, 2014-09-22 Faith War and Violence analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the

contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine's incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States

The International Dimensions of Democratization in Egypt Gamal M. Selim,2015-06-29 This book purports to examine the international dimensions of the democratization process in Egypt in the post Cold War era a theme which acquired significance at the academic and policy oriented levels in light of the growing internationalization of reform arrangements in the Arab world in post 9 11 and the greater involvement of external powers in Arab politics following the Arab Spring uprisings During the second half of the twentieth century the mainstream scholarship presented the democratization process as the outcome of domestic conditions not significantly influenced by actors outside the nation state With the end of the Cold War this perspective was challenged as a result of the third wave of democratization and the subsequent growth of the good governance discourse on the agenda of the international development establishment The new perspective attached a more significant role to external factors in the democratization process than was originally conceptualized [Vehicle,](#)
