Librarian's Guide to Online Searching Christopher C. Brown,2021-06-18 Updates the premier textbook for students and librarians needing to know the landscape of current databases and how to search them Librarians need to know of existing databases and they must be able to teach search capabilities and strategies to library users This practical guide introduces librarians to a broad spectrum of fee based and freely available databases and explains how to teach them The updated 6th edition of this well regarded text covers new databases on the market as well as updates to older databases It also explains underlying information structures and demonstrates how to search most effectively It introduces readers to several recent changes such as the move away from metadata based indexing to full text indexing by vendors covering newspaper content Business databases receive greater emphasis As in the previous editions this book takes a real world approach covering topics from basic and advanced search tools to online subject databases Each chapter includes a thorough discussion a recap concrete examples exercises and points to consider making it an ideal text for courses in database searching as well as a trustworthy professional resource

**The Publishing Business** Kelvin Smith,Melanie Ramdarshan Bold,2018-02-22 The Publishing Business is an invaluable guide to understanding what book publishing is and what it might become Using popular and current examples this second edition demonstrates that to succeed publishers must prove their commitment to producing accurate attractive and well edited content their ability to innovate pioneering digital technologies and their dedication to promoting their titles to new audiences This book explains the responsibilities at each stage of the publishing process describes current roles and practices and provides much food for thought on how publishers can ensure their skills remain relevant in the digital age Fully updated to take into account recent developments in the publishing world this new edition also includes additional real world examples from a variety of publishing sectors insightful interviews with industry experts and new and updated activities throughout Beautifully designed thoroughly illustrated and packed with examples of publishing practice The Publishing Business is an essential introduction to a dynamic industry

E-Publishing and Digital Libraries: Legal and Organizational Issues Iglezakis, Ioannis,Synodinou, Tatiana-Eleni,Kapidakis, Sarantos,2010-10-31 In this book a comprehensive review of various legal issues concerning digital libraries is presented Provided by publisher

*Selling Rights* Lynette Owen,2019-07-31 Selling Rights has firmly established itself as the leading guide to all aspects of rights sales and co publications throughout the world The eighth edition is substantially updated to illustrate the changes in rights in relation to new technologies and legal developments in the UK and the rest of the world This fully revised and updated edition includes coverage of the full range of potential rights from English language territorial rights through to serial rights permissions rights for the reading impaired translation rights dramatization and documentary rights electronic and multimedia rights more detailed coverage of Open Access the aftermath of recent reviews and revisions to copyright in the UK and elsewhere updated coverage of book fairs a major update of the chapter on audio rights an updated chapter on

collective licensing via reproduction rights organizations the impact of new electronic hardware e readers tablets smartphones the distinction between sales and licences the rights implications of acquisitions mergers and disposals updates on serial rights new appendices listing countries belonging to the international copyright conventions and absentee countries Selling Rights is an essential reference tool and an accessible and illuminating guide to current and future issues for rights professionals and students of publishing

**Introduction to Technical Services** G. Edward Evans, Sheila S. Intner, Jean Weihs, 2010-11-11 Used in library schools worldwide this standard text provides students with a thorough understanding of technical services Updated and expanded the eighth edition further emphasizes the rapidly changing environment in which technical services are conducted The book covers all aspects of the field from acquisitions to managing the cataloging department with five new chapters Technical Services Issues includes material related to physical space needs E resources Issues examines how the growth of e materials impact technical services work Copy Cataloging reflects the ever increasing need to be more efficient and also to save limited funds for technical services activities Overview and Decisions addresses the issue of why and how the local OPAC has become a gateway to the universe of knowledge and Processing Materials covers the activities involved in making sure items that go into a library's collection are properly identified as belonging to the library and where the item is physically located in the collection All other chapters have been extensively rewritten and updated to reflect 2010 technical service functions and activities Complete with helpful illustrations statistics and study guide questions this text is a must for library and information science students

Building a Digital Repository Program with Limited Resources Abby Clobridge, 2010-09-24 Whether you are just starting to create a digital repository or your institution already has a fully developed program this book provides strategies for building and maintaining a high use cohesive and fiscally responsible repository with collections that showcase your institution The book explains how to strategically select projects tied to your institution's goals create processes and workflows designed to support a fully functioning program and creatively utilize existing resources The benefits of taking a holistic approach to creating a digital repository program rather than focusing only on individual collections are discussed Case studies and best practices from various institutions round out the author's practical suggestions Focuses on the bigger picture of repository work creating a unified cohesive program but also includes suggestions for effectively implementing digital projects of all shapes and sizes Focuses on doing more with less strategies that are perfect for smaller institutions or institutions which want to be fiscally responsible when it comes to building and sustaining digital repository programs Includes ready to use templates worksheets workshop exercises and assessment tools written by the author
