Product wiring area
 Before you start unpacking, consider where you are going to put the assembled product. You should allow some clear space on all sides of the product box. The recommended dimensions are shown in the illustration. To assemble the product you will need at least 2 x 3 m (6 ft x 10 ft) of empty floor space.

To ensure an accessible operating area for printer use, it is recommended to leave a minimum-clear space of 760 mm (30 inches) by 1000 mm (40 inches) with an even level around the sides of the printer. Light reflection (glare) could affect the readability of the control panel. To improve the visibility, select the most suitable theme (dark/light) in the Control Panel.
