people although sixty five percent of their population lives in cities and the growing body of work on Vietnamese tends to be conducted by social scientists rather than historians few of whom contrast Southeast Asian experiences with those of earlier waves of immigration As a comparative study *Urban Villages and Local Identities* is inspired in part by *Reinventing Free Labor* by Gunther Peck By focusing on the experiences of three populations over the course of 130 years *Urban Villages* connects two distinct eras of international border crossing and broadens the field of immigration to include Native Americans Ultimately the work yields insights into the complexity flexibility and durability of cultural identities among ethnic groups and the urban mainstream in one capital city
