

Student Exploration: Half-life

Essential Question: How does the half-life of a substance change as the amount of substance decreases?

1. Use the simulation to explore the relationship between half-life and amount of substance. The simulation starts with 100% of substance. Record the amount of substance left after each half-life. How does the amount of substance change over time? Describe the relationship.

2. The half-life of a substance is the time it takes for the amount of substance to decrease by half.

Activity 1: Measuring Half-life	Use the simulation: <ul style="list-style-type: none"> • The simulation starts with 100% of substance and 0% of decay product. • Record the amount of substance and the amount of decay product.
