

How do we know all this stuff about the universe and the Earth?

- **Observation:** Directly observing the universe
- **Experimentation:** Testing hypotheses in a controlled environment
- **Theory:** A model that explains the observations
- **Simulation:** Using computers to model the universe

1. Observing the universe: We observe the universe by using telescopes and other instruments to collect light and other information from distant objects.

2. Experimentation: We can experiment with the universe by using models and simulations to test our ideas about how it works.

3. Theory: We develop theories that explain the observations we make and the results of our experiments.

4. Simulation: We use computers to simulate the universe and test our theories.

5. Models: We use models to represent the universe and test our theories.

6. Simulations: We use computers to simulate the universe and test our theories.

7. Models: We use models to represent the universe and test our theories.

8. Simulations: We use computers to simulate the universe and test our theories.
